

# **Intensive Play-Based Inter-Professional Treatment Program**

**Includes daily therapy for 6 weeks  
2 hours of Speech Therapy  
1 hour of Occupational Therapy  
3 hours total per day**

Boost your child's speech, language, social, fine/gross motor, and sensory processing skills!

This program uses methods to improve the child's functional emotional developmental levels and sensory processing through evidence based-practices such as The PLAY Project and Sensory Integration (SI)
